

Freiderich Soriano Peralta

Address: Dau Mabalacat City, Pampanga

Contact No: +63 949 405 6725

Email: freiderichperalta@gmail.com

OBJECTIVE

A passionate Bachelor of Science in Computer Engineering, I am seeking a web development internship where I can apply my academic knowledge, gain practical industry experience, and further develop my programming and design skills while contributing to the company's success.

EDUCATION

• TERTIARY

Bachelor of Science in Computer Engineering at Holy Angel University, Angeles City, Pampanga
2021 - 2026

• SECONDARY

STEM course at Holy Angel University, Angeles City, Pampanga
2020 - 2021

Philippine School Doha at Doha, Qatar
2009 - 2020

MEMBERSHIP

Institute of Computer Engineers of the Philippines
2024 - Present

WORK EXPERIENCE

Department of Information and Communications Technology – IT Intern Trainee
(Nov 2025 – Jan 2026)

- Developed an Inventory Management System using PHP/MySQL.
- Created digital content and educational posters for training and awareness campaigns.
- Designed PowerPoint slides and visual materials for presentations.
- Produced a video recap highlighting DICT activities in 2025.
- Assisted with IT support and workstation setup.
- Participated in social media marketing training, including making Facebook virtual assistant content, posters, figures, and videos.
- Handled administrative tasks for DICT Pampanga Provincial Office.

CERTIFICATES/PARTICIPATION

CERTIFICATIONS

- Artificial Intelligence Fundamentals – IBM SkillsBuild (2026)
- Introduction to IoT – Cisco (2026)
- Introduction to Data Science – Cisco (2025)
- Introduction to Modern AI – Cisco (2025)
- Apply AI: Analyze Customer Reviews – Cisco (2025)
- Using Computer and Mobile Devices – Cisco (2025)
- Digital Awareness – Cisco (2025)
- Engaging Stakeholders for Success – Cisco (2025)
- Junior Cybersecurity Analyst Career Path – Cisco Networking Academy (2025)
- CCNA: Enterprise Networking, Security, and Automation – Cisco (2024)
- CCNA: Switching, Routing, and Wireless Essentials – Cisco (2024)
- CCNA: Introduction to Networks – Cisco (2023)
- 40-Hour SPARK Technical Training for Social Media Marketing – Department of Information and Communications Technology (2025)
- SPARK Social Media Marketing Certificate of Completion (2025)
- AI for Digital Novice MSMEs (2025)

SEMINARS & PARTICIPATION

- Cisco Student Regional Congress (2026)
- ICpEP Region III Webinar Series:
 - Webinar 3 – Empowering Global Community with Cloud-Network Innovation (2026)
 - Webinar 4 – Educating Humans for a Robotic World (2026)
 - Webinar 2 – How Data Analytics Transforms Strategy (2025)
 - Webinar 1 – Future Forward (2025)
- Professional Development Workshop (2026)
- Orientation on SSS, PAG-IBIG, and PhilHealth (2026)
- Labor Education for Graduating Students (LEGS) (2026)
- 14th Annual General Membership Meeting – ICpEP Pampanga Chapter (CPE Delegate)

SKILLS/PROJECTS

Programming & Web Development

- JavaScript, Python, C++, Django, HTML, CSS, PHP, MySQL

Projects:

- Built a Python-based web app with CSS design (frontend & backend support)
- FicoCafe Website (local business in Angeles City) – created a responsive,

user-friendly website with groupmates to boost the business's online presence

- Developed an Inventory Management System during internship at the Department of Information and Communications Technology using PHP and MySQL for database management and backend processing

Networking & Security

- Hands-on experience through lab activities, focusing on building a small network. Used Cisco Packet Tracer to address network issues and security
- Knowledgeable in CCNA networking concepts (routing, switching, security, and automation)
- Basic understanding of cybersecurity principles from Cisco's Junior Cybersecurity Analyst program

Hardware & Circuit Simulation

- Circuit design and prototyping with Fritzing and Tinkercad
- Hands-on experience with breadboard prototyping, schematic design, and PCB layout
- Hardware-software integration using Arduino Uno and Raspberry Pi for embedded projects

Projects:

- Smart Door Alert System (using Raspberry Pi 3)
- Functional Battle Bot (using Arduino Uno)
- AI Kiosk Platform (an AI-driven kiosk system prototype for automating school financial transactions)

Other Skills

- Competent in English and Tagalog (written and verbal)
- Adaptable, able to work under pressure, and effective team player
- Highly motivated and open to learning new technologies and industry practices
